

Saw Mill, So Good !

*I've got a mill turning in the wind
And when the wind is blowing
there's... nothing better for me !*

I've got a mill turning in the wind
A saw sawing the biggest trees
It makes me happy
It builds houses and ships

And when the wind is blowing
there's... nothing better for me !

I've got a mill turning in the wind
A grinding wheel crushing a giant stone
It makes me happy
It gives colors to paint

And when the wind is blowing
there's... nothing better for me !

***But as the world keeps on turning
I'll always cherish my sawmill for real
And as long as the wind blows in Nederland
It will be the better mill in the Land***

I've got a mill turning in the wind
A big wheel pumping polder water
It makes me happy
It keeps me dry and safe

And when the wind is blowing
there's... nothing better for me !

I've got a mill turning in the wind
A millstone extracting flour from wheat
It makes me happy
It gives me bread to eat

And when the wind is blowing
there's... nothing better for me !

***But as the world keeps on turning
I'll always cherish my sawmill for real
And as long as the wind blows in Nederland
It will be the better mill in the Land***
